DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3,6 & 8-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent (2003-74992). JP (2003-74992) discloses a refrigeration cycle comprising: an evaporator (6), a flow control (5), a liquid separator (4), a compressor (1), a condenser (2), a control valve (7), an ejector (3) and a bypass (B) – see figure (4).

Allowable Subject Matter

Claims 4,5 & 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
